### STANDARD DELIVERY

The above prices are for 'standard delivery' as part of a shared load on a large lorry. The lorry is fitted with a crane which can offload alongside the vehicle (you will need to make arrangements yourself to move the pack to the final location if necessary). 'Standard delivery' is normally 7-28 days (subject to availability) depending on when the next shared load run can be made up (see dedicated delivery below if you requirement is urgent).

We always do our best to fit in with individual delivery requirements with a 'standard delivery' but cannot guarantee a specific day or time in advance of the load being arranged. Advance notice of approx. one week will be given of the delivery date and the *anticipated* arrival time (i.e. mid-morning etc.) and we can get the driver to telephone ahead if required (actual time will be affected by road conditions on the day etc. which are unpredictable).

### DEDICATED DELIVERY

If you require a specific date and time or need a different type of delivery vehicle, then a 'dedicated delivery' will be required and additional charges will apply (please request a quotation). Delivery outside mainland, England, Scotland and Wales is only available as a 'dedicated delivery' and payment must be cleared through our bank prior to dispatch.

### COLLECTION

Collection can be made from the Crawley distribution depot, by prior arrangement, once payment has been cleared.

We regret that we are unable to visit individual sites to assess access/offloading requirements.

Expandarange products are flat pack and require assembly on site by others (assembly service available in some areas at extra cost – contact us for details)

Please add VAT to all prices

Payment	With order by cheque or BACS (Account customers - 28 days from invoice).
