

gardenstore

The secure, flat packed garden store
you can use anywhere

The all NEW improved Gardenstore now available

- Stainless steel hinges
- Improved security
- Stronger wall panels
- Fully man portable

Gardenstore is a unique way to keep your garden equipment and tools safe and thanks to its unique design, can be used almost anywhere.

Gardenstore's steel construction is robust but lightweight and thanks to its flat pack construction is totally man portable.

In fact, the components can be carried almost anywhere meaning Gardenstore can be used in even the most hard to access gardens and backyards.

Here's why Gardenstore is the UK's leading flat packed garden storage unit...

- **Secure** – Robust steel construction with double locking system
- **Portable** – Light enough to be carried to even the most inaccessible places
- **Simple** – No specialist tools needed – just a socket set is all you'll need
- **Quick** – Once the components are in place it takes just 1 hour to construct
- **Adaptable** – Can easily be returned to flat pack form for use elsewhere
- **Flexible** – A wide range of accessories available for personalised storage solutions

So if you're looking for a great alternative to the humble garden shed that's secure, of robust construction but light enough to be man portable, will fit in even the most inaccessible areas and is quick and easy to assemble... Gardenstore is the solution.

ready for use

Technical Information

General

Gardenstore's unique design means it's light enough to be man portable but strong enough to deter the most determined thieves. All the components can be broken down and carried through narrow passageways to previously inaccessible locations.

Chassis and floor

Pre-assembled 18mm thick grade OSB3 board screwed to a galvanised steel box profile frame.

Side walls, door and roof panel

0.6mm box profile galvanised steel panels, galvanised steel frame sections at the edges of each panel. The roof section has two integral gutters for effective rainwater dispersal to all four corners of the container. The door is pre-mounted into the frame on stainless steel hinges, complete with two insurance rated locks and a central roller catch. Door width: 1138mm, hinges on the right, outward opening.

• **Front Profile:** 1500 x 2083mm

• **Side Profile:** 2614 x 2083mm

• **Footprint:** 1416 x 2530mm

All flat pack units are 370mm high

All assembled units are 2083mm high

Note: Due to our continuous product development programme, we reserve the right to change the specifications without prior notice.
