### Prices are for Standard delivery as part of a shared load

Lead time approx. 2-4 weeks depending on when a shared load delivery run can be made up and could be much sooner if we are planning a delivery run to your area at the time you order. We will advise you of the exact delivery date once the route has been finalised which is normally around five days in advance.

Deliveries will normally be between 8:00 & 18:00, we are unable to give a specific delivery times.

The standard delivery vehicle is a large 26 ton rigid HIAB crane lorry that will offload directly alongside at curb side subject to good access and egress and sufficient room for crane vehicle to setup and offload. In the event that access/egress is not suitable aborted delivery charges will apply.

We regret that we are unable to visit individual sites to assess access/offloading requirements.

*If you require a specific delivery date or time, or advanced prior notice, or need a non-standard vehicle or method of offloading or any other site specific requirements please contact us prior to placing an order as additional charges will apply.*

### Collections

Collection can be made from the Crawley distribution depot, by prior arrangement, once payment has been cleared. All collections of units must be made on flatbed trucks or trailers that have the footprint of the unit being collected.

Expandarange products are flat pack and require assembly on site by others (assembly service available in some areas at extra cost – contact us for details)

All goods remain the property of TP Structures Ltd until payment is received in full, but the risk therein shall pass to the purchaser on delivery and any liability arising to third parties in respect thereof after delivery shall be for the purchasers account.

**Our terms apply unless specifically agreed otherwise by TP Structures Ltd in writing PRIOR to the placing of an order**
