

Guard Station

The UK's market leading insulated,
man portable Guard Station

- Robust, secure construction
- Demountable for easy transportation
- Insulated and fully enclosed
- Versatile – can be used almost anywhere

Guard Station - The secure, man portable kiosk you can use almost anywhere.

Ideal for a wide range of applications, the Guard Station is a fully enclosed, versatile and high quality unit. Designed to offer protection from the elements and provide safe working space for personnel, Guard Station is of sturdy construction and is currently used in a wide variety of roles and by many operators including:

- Car parks and parking management
- Theme parks and outdoor attractions
- Industrial Centres and business parks
- Concerts and festivals
- Show grounds and events
- Construction sites
- Transport hubs

The unit is delivered ready to use but thanks to its unique design, the Guard Station is fully demountable meaning it can be disassembled into 6 parts for easy transportation to a new location – it will even fit into a Transit van.

Key features include:

- Panels manufactured in galvanised steel
- OSB3 board floor for long life span
- All parts can be replaced in case of damage
- Fully demountable for easy relocation or storage
- Simple to reassemble – all you need is a socket set and screwdriver
- All components fully man portable
- Durable protective powder coated finish
- Electric pack available as an additional accessory
- Fully insulated
- Forklift pockets for easy re-positioning

So if you require a high quality kiosk that's robust in construction, easy to relocate and great value for money look no further than TP Structures Guard Station.

Technical information
